Your goal: become the master of the slicing fruit! What better way to play fruit than to play the nanja, the real hit fruit-slicing mobile game? 🍷 your blade and start loving against the rassi with three classic game methods, billions of players that have come to know and love. You experience the encouragement of setting a new high score in fan favorite arcade mode as you focus on the dod-ing bombs, frozen or slicing mass with the help of anamad cane. Need something less severe? Just slash for comfort and relief of tension in Zen mode. Finally, cut as much as you can in the infinite classic mode-just avoid bombs and make sure you don't leave the fruit! Make your game even more interesting Special Povaru which will give your score a rasil boost. 🍷 Once you have surrendered your skills and reflexes, they are put to the test in event mode, where you will enter challenges and fierce clashes with characters like you, which provide the opportunity to win unique swords and dojos that can be used in classic, zen and arcade mode. Make your day more active in your daily challenge mode and make you more active in your daily challenge mode-can you cut off other nanjeas for special rewards and glory? 🍷 prove to your friends and family that you are the top most closearound. Show them how much you can reduce in a shared screen local multiplayr match, or compare your score with your friends to rise through rows and reach the top of the leaderard! Big fan of fruit snanja: Puss in shoes? Be sure to challenge ye with entertainment and addiction Managamas and find your favorite! 🍷 what are you waiting for? Whether you are playing for some incomplete fun and trying to relax and time go, or trying to improve your skills as master knowledge, this is the game for you. Enjoy And believe in the hype of fruit snanja – cut the bites! X see our privacy policy our terms service need help with this game?
